

IPC SELECTS HIBERNIA ATLANTIC'S GLOBAL FINANCIAL NETWORK (GFN) TO PROVIDE NEXT GENERATION DATA NETWORK SOLUTIONS

GFN Provides Secure and Diverse Connectivity between North America and Europe

SUMMIT, NJ & DUBLIN, IRELAND- October 20, 2009- [Hibernia Atlantic](#), the only diverse transAtlantic submarine transport cable provider, today announces that it has been selected by [IPC Systems](#), the leading provider of indispensable communications solutions to financial services firms, to help create the foundation for its Next Generation Data Network Solutions in North America and Europe.

Hibernia's GFN provides ultra low latency network connectivity between global banks and financial exchanges through a single connection, over its diverse and secure global communications network. The network is built upon 24,000 Kilometers of fiber optic cable and offers customers access to key metropolitan markets and financial exchanges in North America, the United Kingdom and across Europe.

"IPC is committed to delivering new network capabilities such as Electronic Connection Services, to link market participants to exchanges," commented Jeff Britell, director, Carrier Services, Americas, IPC. "We partnered with Hibernia Atlantic to provide our services because their ground-breaking network topology delivers the low latency, resiliency and rapid turn-up time required for our customers to maintain a competitive edge."

"IPC has not only been a customer, but a partner with 10 points of presence on our network throughout North America and Europe," added Joe Hilt, vice president, Americas, Hibernia Atlantic. "The GFN has provided IPC with unique opportunities to extend into new markets quickly, efficiently and cost-effectively. If they need to get into a market, we are there to deliver it for them."

Currently Hibernia Atlantic's GFN provides customers with a guaranteed five-day turn-up from signature to service, or one month free.
