

## **MEDIAXSTREAM BUILDS UPON HIBERNIA ATLANTIC'S SECURE AND DIVERSE FIBER NETWORK TO DELIVER ITS (HD) MEDIA SERVICES TO EUROPE**

**SUMMIT, NJ & DUBLIN, IRELAND-March 3, 2009-** [Hibernia Atlantic](#), the only diverse transAtlantic submarine transport cable provider, and [MediaXstream, Inc](#), a premier provider of high definition (HD) network services for broadcast, media & entertainment announced today that Hibernia will provide MediaXstream with multiple 10Gbps wavelengths of capacity from North America to Dublin and London. Hibernia's redundant and diverse transAtlantic cable is an ideal vehicle to ensure MediaXstream's high definition media services are delivered securely throughout the European marketplace.

"MediaXstream caters to the media and entertainment industries, so we need to ensure that our network services are transported with the highest quality routing and security," states Delwin Bothof, President and CEO of MediaXstream. "We deliver high-definition, pristine video transmission and live event transmissions across the Hibernia network that we trust. This network is managed 24/7 with our Television Operating Center (TOC) in Baltimore as well as Hibernia's dual NOC in both Dublin and Boston and in all four cable landing stations. Hibernia's unique routes across the Atlantic Ocean bypass traditional terrestrial choke points near New York/New Jersey and London which makes it an ideal choice for our high volume, high quality secure traffic. Hibernia's team of network professionals understands our content requirements and continues to provide innovative network solutions for us."

"Our two companies share the same common interest," continues Bjarni Thorvardarson, CEO of Hibernia Atlantic, "to ensure that we provide our customers with the best quality of service. With this in mind, MediaXstream provides a managed service in DTM (Dynamic synchronous Transfer Mode), an optical transport technology, to efficiently control the transport of video content. Simply stated, MediaXstream operates dedicated media networks and offers media-centric solutions developed for video and broadcast companies. MediaXstream and Hibernia Atlantic now bridge high quality DTM service between North America and Europe to seamlessly interconnect broadcasters and media enterprises on both continents.. We look forward to supporting MediaXstream as they continue to emerge in this booming marketplace."
